

# **MICCRO<sup>®</sup> PRODUCTS** TECHNICAL INFORMATION DATA

## **MICCROTAPE<sup>®</sup> 3/4"**

### **DESCRIPTION:**

Microtape 3/4" Vinyl Platers Tape is for most plating cycles. Chemical resistant adhesive won't contaminate plating baths. Specifically designed with tapered edges for positive sealing.

### **CONSTRUCTION:**

Adhesive: Rubber

Backing: 12 mils vinyl

Std. Roll length: 175 ft

Temperature Resistance: 15 °F to 195°F

Color: Black

### **FEATURES:**

- Will Not Contaminate Solutions.
- Tapered Edges—Fusion Capabilities.
- Adhesive Qualities and Flexibility
- Electroless Nickel—Hard Chrome.
- Anodizing—Chemical Milling.

### **APPLICATION:**

Excellent for most plating cycles and plating racks.

A half-ounce tube of Miccrotape Cement is included with each roll of Miccrotape. Miccrotape Cement provides for sealing ends when baking or fusion is not possible. To achieve ultimate adhesion, the bonding surface should be dry, clean and free of dirt and oils.

Alternative to 3M 470-471

†Note: Values should not be used for specification purposes. Each user should make their own test to determine the product's suitability for their own intended use and shall assume all risks and liability in connection herewith. Materials should be stored at 70°F (21°C) with 50% relative humidity.
